The performance data shown represents past performance and is not a guarantee of future performance. Current performance may be higher or lower than the performance presented here. The investment return and the value of the investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than their original cost. The returns posted reflect total return for the period ending September 30, 2009 less the Management, Portfolio Servicing, and Maine Administration Fees, as well as fees and expenses of the underlying funds. The returns do not reflect the $25 annual account maintenance fee and returns shown would be lower if they did. The allocation of the Portfolios is subject to revision at any time by the Finance Authority of Maine and under normal circumstances it is anticipated that the allocation of the Portfolios will be adjusted at least annually. Investment return will fluctuate with market conditions. Non-qualified withdrawals are subject to a 10% IRS penalty and ordinary income tax on the earnings.
