Getting Connected

- Please keep us updated regarding staffing changes.
 - If you didn't receive an invite directly from us, please reach out to me at mtappan@famemaine.com so we can add you to our mailing list.
- We'll be sharing resources at the end but the easiest way for students and parents to stay up to date is to join our email and/or text list at FAMEmaine.com/join.

StudentAid.gov Account Basics

StudentAid.gov Account

- **First step** in the FAFSA filing process.
- Accounts are created at **StudentAid.gov**.
- When an account is created, individuals set up a **username and password**.
- A StudentAid.gov account is required to access the FAFSA and all Federal Student Aid processes and serves as legal signature.

StudentAid.gov Account Creation

Creating a StudentAid.gov Account

- The flow of account set up has changed.
- The first step is for individuals to provide a **unique email address** which must be accessible when creating the account to complete 2-step verification.

The screenshot shows the 'Create an Account' process with a progress bar at the top indicating six steps: 1. Email, 2. Personal Info, 3. Phone, 4. Address, 5. Password, and 6. Security. Step 1 is currently active. Below the progress bar, the heading 'Add Your Email Address' is displayed. Underneath, there is a label 'Email Address' and a text input field containing 'user@example.com'. At the bottom of the form, there are two buttons: 'Exit' on the left and 'Continue' on the right.

The screenshot shows the 'Secure Code Sent' verification screen. It prompts the user to 'Enter the secure code we sent to your email: user@example.com.' Below this, it says 'Enter the secure code below.' and shows a text input field with the code '123456'. There are links for 'Resend code' and 'Didn't receive a code?'. At the bottom, there are 'Cancel' and 'Continue' buttons. The 'Continue' button is highlighted in blue.

- Students **should not** use their high school email address. Instead, recommend they **create a new email address**.

StudentAid.gov Account Creation

Creating a StudentAid.gov Account

- Next, individuals provide **identifying information** including their Social Security number (SSN).
 - Name, date of birth, and SSN are matched against Social Security Administration data to verify the individual's identity.
 - **The match with SSA now happens in real time!**
- Individuals then provide their mobile phone number.
 - Mobile phone numbers can now be shared across up to five accounts.
 - The phone must be accessible and able to receive texts when setting up the account.

The screenshot shows the 'Create an Account' process at StudentAid.gov. A progress bar at the top indicates the current step is 'Phone' (Step 3), with previous steps 'Email' and 'Personal Info' completed, and subsequent steps 'Address', 'Password', and 'Security' remaining. The main heading is 'Add Your Mobile Phone Number'. Below it, a subtext explains: 'Add your phone number to help with account recovery and two-step verification. A phone number can be used with up to five accounts.' There is a text input field for the 'Mobile Phone' number, with the placeholder '(210) 555-5555'. Below the field is a checkbox labeled 'Opt in to receive text messages about federal student grant and loan programs. (Recommended)'. At the bottom, there are 'Previous' and 'Continue' buttons.

The screenshot shows the 'Secure Code Sent' verification screen. It prompts the user to 'Enter the secure code we sent to your phone number: (210) 555-5555.' Below this, there is a text input field containing the code '123456'. There is a 'Resend code' link and a 'Didn't receive a code?' dropdown menu. At the bottom, there are 'Cancel' and 'Continue' buttons. A checkbox at the very bottom allows the user to 'Opt in to receive text messages about federal student grant and loan programs. (Recommended)'. There are also 'Previous' and 'Continue' buttons at the bottom of the screen.

StudentAid.gov Account Creation

Creating a StudentAid.gov Account

- Individuals then provide their **mailing address**.
- Next, they set up their **username and password**.
- Lastly, they have the option to add an authenticator app as an additional verification method and receive their backup code (write this down!).
- Challenge questions are no longer part of the account creation process.
- The account is then created!
- **The FAFSA can be started immediately.**
 - Users can log in using their username or verified email address (but not their mobile phone number).

StudentAid.gov Account– No SSN

Parents without an SSN...

- Parents **without an SSN** can create an account.
- **Process is similar** for those without an SSN except there is an **extra step at the end to verify their identity**.
 - If enough information on file with TransUnion, four knowledge-based questions will be asked. If answered correctly, identity is verified.
 - If there isn't enough information on file with TransUnion or if the questions aren't answered correctly, individuals can still create an account and use it immediately.

Who Needs a StudentAid.gov Account?

Who Needs a StudentAid.gov Account?

- **Every contributor** must have **their own StudentAid.gov account**.
- A contributor is anyone providing information on the FAFSA who is required to provide **consent by clicking approval** (which allows IRS to disclose their *federal tax information (FTI)*, and the DoE to use their FTI and redisclose their FTI to schools and organizations).
- The student is always a contributor.
- Other possible contributors include the parent, the parent's spouse, and student's spouse.

Determining Parent Contributors

Determining Parent Contributors

- If parents are **married and filed a 2025 joint tax return**, information for both parents will be required but only **one parent** will need a StudentAid.gov account.
- If parents are **married and filed 2025 taxes separately**, or if parents live together but aren't **married**, information for both parents will be required and **both parents** will need their own StudentAid.gov accounts.

Determining Parent Contributors

- If parents are **divorced, separated, or never married** and don't live in the same household, the parent who provides the **most financial support** will be required to provide information on the FAFSA and will need their own StudentAid.gov account.
- If that **parent is remarried** on the day the FAFSA is filed, information for their spouse will also be required and their **spouse will need their own StudentAid.gov account unless** they filed a 2025 joint tax return.

When Should a StudentAid.gov Account Be Created?

- StudentAid.gov accounts can be created any time!
- Account data must be **matched** with the Social Security Administration for **tax information to be transferred from the IRS**.
- The match happens in **real time**.
- Therefore, individuals can create their account and **file their FAFSA immediately**.

Building a List of Schools

Schools to List on the FAFSA

- Students need to list **at least one school** on the FAFSA.
- Students should list all schools they are considering.
- Encourage student/families to use **net price calculators** (available on each school's website) but watch for signs that the calculators haven't been updated recently.
- Student can use the **Big Future** website to investigate and search for schools based on **affordability**.
 - Schools vary tremendously in the amount of aid offered and “percent of need” they can meet.

The Path to Affording HIGHER EDUCATION

The key to affording higher education is to start planning early. The longer families have to save and start planning early also gives families more time to get "financially fit." Early planning can also help families understand the importance of good grades and the role of scholarships. Follow the path to see a better plan ahead to afford higher education!

CONVERSATION STARTERS

Savings, Direct Payments, and Tuition Payment Plans

- ☐ Are you (the parents or family members) saving for higher education? If so, how much will be available when your student graduates from high school?
- ☐ Are you (the student) saving for higher education? What are the savings expectations when you receive birthday or holiday gifts or money from work?
- ☐ Do you (the parents or family members) plan to use tuition payment plans to help pay for higher education? If so, how much per month can you afford? Is there a strategy to make more money available? Is it possible to pay down debt or other obligations to free up money in the future?
- ☐ Considering all sources, how much can you (parents or family members) contribute per year?
- ☐ Considering all sources, how much can you (the student) contribute per year?

Scholarships

- ☐ Are you (the student) applying for scholarships? What is the expectation related to the number of applications?
- ☐ Do your grades open up the possibility of merit-based scholarships?

Borrowing

- ☐ How do you feel about borrowing? No borrowing? Limit borrowing to only Federal Direct Loans (\$5,500 for the first year)? Will you consider additional borrowing (which will have a credit component)? Are parents or family members willing to co-sign a private loan?
- ☐ How much total debt is acceptable (for all years of education)?
- ☐ Who will be responsible for repaying the debt?

Pathways

- ☐ Is there agreement that you (the student) can apply to any school, including those that appear to be a financial reach? What happens if you get accepted but it is not affordable?
- ☐ Are you (the student) open to considering multiple pathways (i.e., community college for a year or two, starting at a more affordable school with a plan to transfer, or attending school locally and living at home)?

To complete the financial aid process, you'll need to contact the financial aid office at the school you wish to attend.

If you are not in contact with a parent, or contacting a parent would pose a risk to you, you are considered a provisionally independent student. You will need to speak with the financial aid office at your school about your circumstances.

If you have indicated that you are unaccompanied and either (1) homeless or (2) self-supporting and at risk of being homeless, the financial aid office at your school is required to make a determination of your status based on a written statement from you or a documented interview with you. Please contact your school's financial aid office to complete this process.

We won't be able to calculate your Student Aid Index (SAI) until your financial aid office confirms your circumstances. Until then, we will provide only an estimate of your federal student aid eligibility as an independent student.
